

Newsletter #10

We're still on schedule.

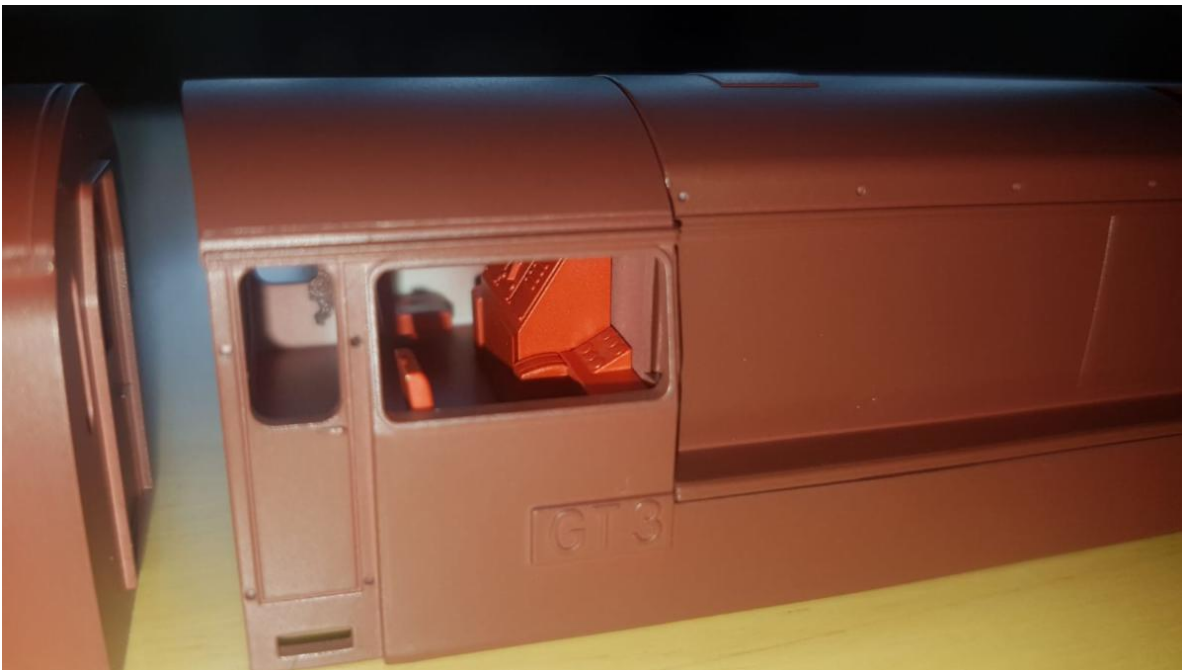

Greetings!

The first test print are in from the factory. Which means that the EP samples will not be far behind. That's when we fine tune the model to correct any issues or flaws. We have done a lot prior to hitting the tooling stage, but something may have been over looked.

The sound files should be complete by the end of this month. Then we can program the sound decoders ready for installation. These have been ordered and are just awaiting programming.

There has been some confusion and discussion over the drive train we intend to use. Our plan is to test the two possible versions to see which is more suitable. We'll post up the results.

The final payment will be requested in November.
This will also include the postage payment.

The order book WILL close on November 30th.

PAY PROCESS - Head to the website

**Pre-orders are now being taken for the Flask Wagon.
This is selling fast, order your before it's gone.**

DC £80.00 plus shipping
DCC £150 plus shipping

We had a great turn out at the Great Electric show in Milton Keynes over this last weekend. We are looking forward to seeing more new faces at Warley next month.
