

WE DARE TO BUILD

LATEST UPDATE

Where are we with the progress???

As everyone is aware the current situation with  Covid-19 (Coronavirius) is affecting aspect of everyday life. We are currently monitoring our delivery schedule, and our factory is currently 40% operational. Having said that, we are expecting the next sample to arrive beginning of April. Once we sign off on it, we can get the painted sample and then we can start assembly. We are still on schedule for delivery during June, but this is subject to change.
