

WE DARE TO BUILD

Our latest Newsletter #31

Jan 2022.

The GT3 2nd batch has been dispatched. We were aware of a few delays for which we apologise. This was due to staff shortages and the volume of the orders to be dispatched.

The GT3 first run bogie fix has also been dispatched. Some of you have asked us about the replacement buffer beam too, however it has not been supplied. If you wish to contact us regarding how to fix the buffer beam, email us at [michael@krmodels.co.uk](mailto:michael@krmodels.co.uk).

Hornby magazine readers voted us Best OO gauge Locomotive of 2021. We would like to thank everyone who voted for us. We really appreciate every customer who has support by buying our products, and you all have our eternal gratitude.

2022/23 will be great years as we have more exciting models to come.

There are some GT3 models available if you don't want to miss out on them. We have a limited number of the DCC Sound and a few of the limited BR Blue version. Grab them before they are gone.

## SR 4DD EMU

Following our announcement last year of the Bulleid 4DD EMU, interest has been very strong. Therefore we will be moving into the tooling process very soon.

The CAD drawings are almost complete and look very interesting. There will be lighting in all 4 units. We are researching including seated figures in model.

There are two examples still in existence that have valuable in the research in this project. The Bulleid 4DD Double Deck Group have been instrumental in getting this model to where we have it now. The CAD's are being made now.

Prices will be £350 for DCC ready, £380 for DCC fitted and  
£450 for DCC sound

These prices are subject to change.

The Expression of interest is open now.
