

WE DARE TO BUILD

Our latest Newsletter #34

May 2022.

It has been a very busy and challenging month.
We have delivered all the Consett's now. We apologise for the
issue with Pack B and the missing loads. If you are still missing
a load, then email sarah@krmodels.co.uk

The Fell pre-production sample.

First impressions look very good. We have noticed some very small errors that we need to fix before we ship out the models. We appreciate your patience and we hope that you understand that we want it right and not to have issues. It won't take too much longer so as soon as we know more we'll let you know.

The Clayton DHP1

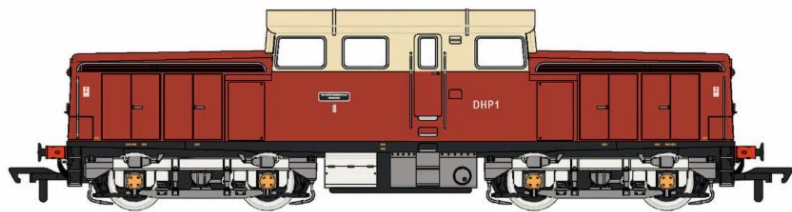

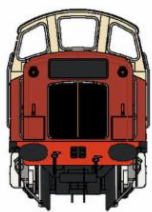

As you can see from the 1st EP sample, progress is moving along apace. It runs great through 1st radius curves, so would be great on a small layout.

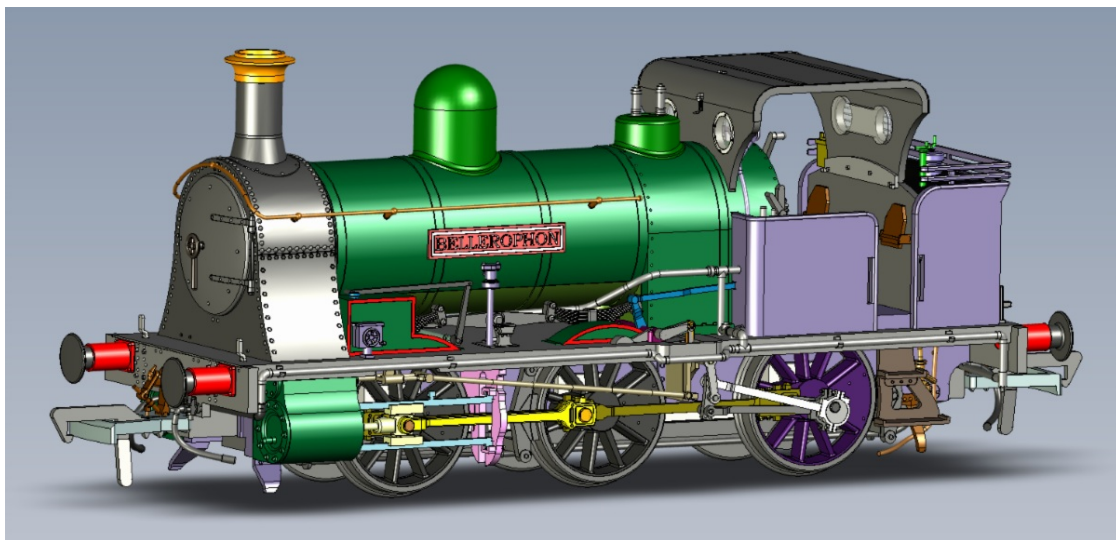

There are still a few left to pre-order. Please use the link below to secure your model.

SR 4DD EMU

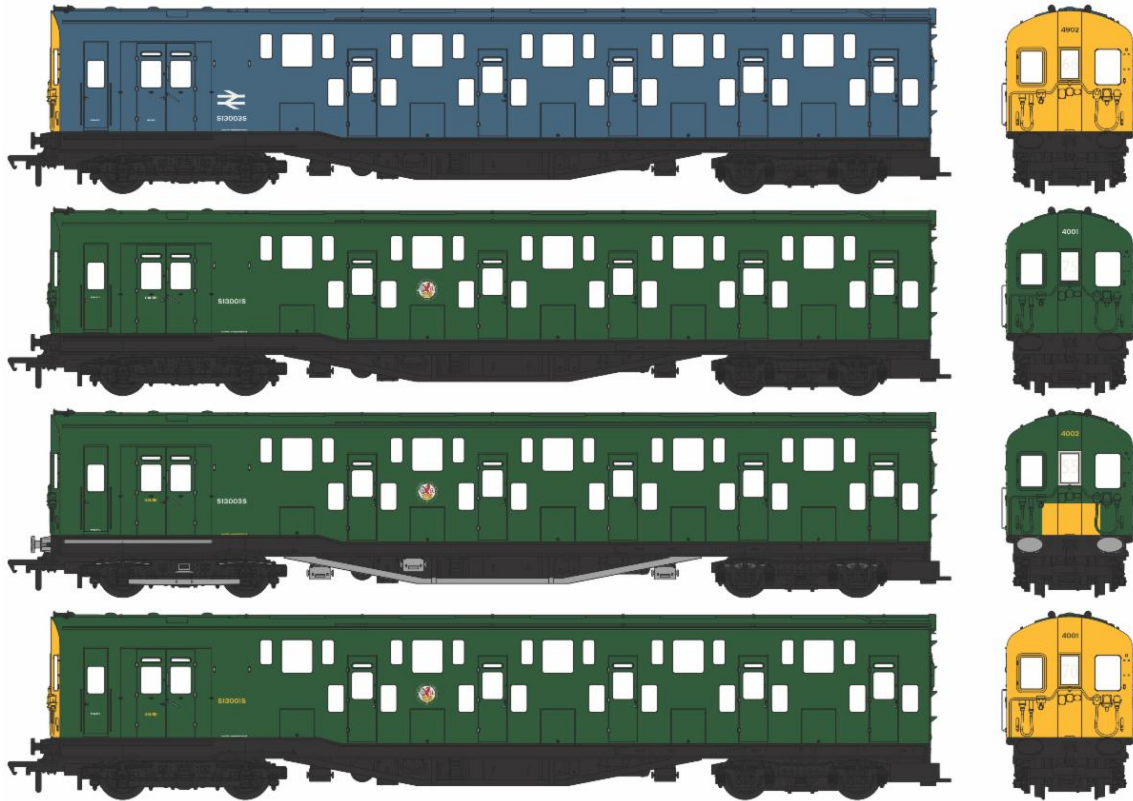

Following our announcement last year of the Bulleid 4DD EMU, interest has been very strong. Tooling has begun and we should have samples in about 6 months. Therefore we have a 12month instalment plan for ordering.

The CAD drawings are almost complete and look very interesting. There will be lighting in all 4 units. We are looking into the prospect of including seated figures in model.

There are two examples still in existence that have valuable in the research in this project. The Bulleid 4DD Double Deck Group have been instrumental in getting this model to where we have it now. The CAD's are being made now.

Prices will be £375 for DCC ready, £410 for DCC fitted and
£475 for DCC sound

The order Book is now open !!
