

WE DARE TO BUILD

Our latest Newsletter #35

June 2022.

Here we are, heading into summer and the projects are coming hard and fast. We will have two major announcements this year. The first will be in October at GETS 2022 and another huge announcement in

November at Warley. It's so good to have the train shows up and running again, we have missed chatting with you all. Are we back to normal? Far from it, but things are slowly dropping into place.

We have had a few emails saying that we haven't kept to the delivery dates. We have no control over some issues that have caused delays. We are not the only industry or company that has been affected by Covid-19 shutdowns shortages in parts and materials. The Fell has been delayed by some of these issues. But it's now on the water.

We received some criticism from the last newsletter that we didn't mention The Leader. If there's no news on a project then we can't report it.

---

The Fell pre-production sample.

The latest update on the Fell is that they are now on their way to the warehouse and we will give you an update once they have cleared customs. Delivery as per the docking date will be in July. So final delivery will be a short time after that.

---

### The Clayton DHP1

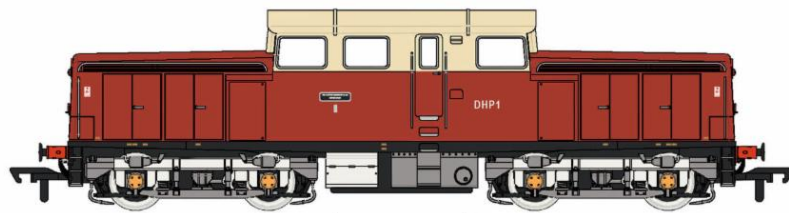

As you can see from the 1st EP sample, progress is moving along apace. It runs great through 1st radius curves, so would be great on a small layout.

There are still a few left to pre-order. Please use the link below to secure your model. We expect the decorated samples very soon, details to follow.

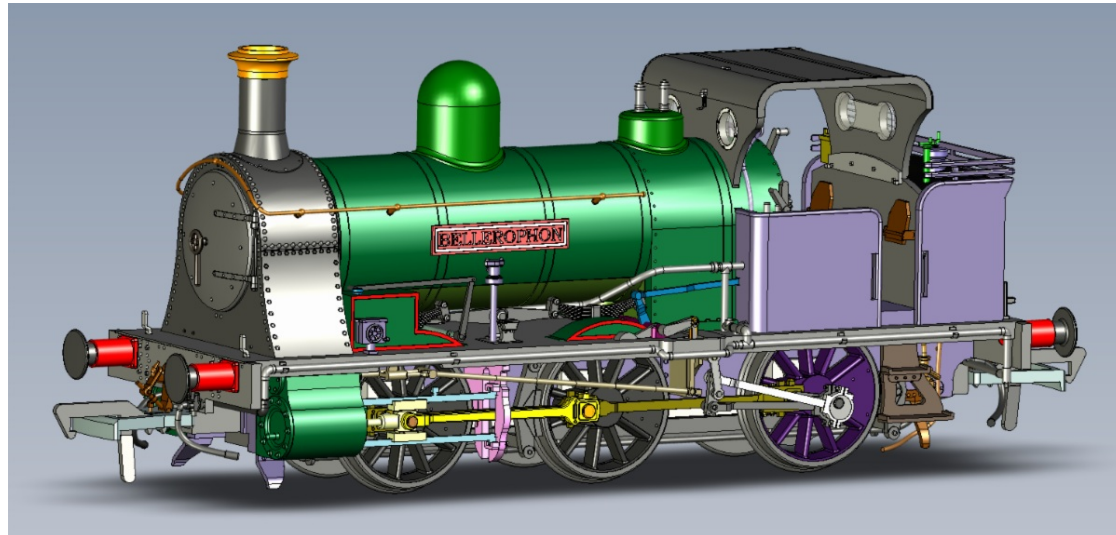

**[Clayton DHP 1 Order Book](#)**

---

## Bellerophon

As of today, the tooling is well underway. Looking to have the EP samples in the next 3 months. Delivery is expected summer of 2023. This is subject to change.

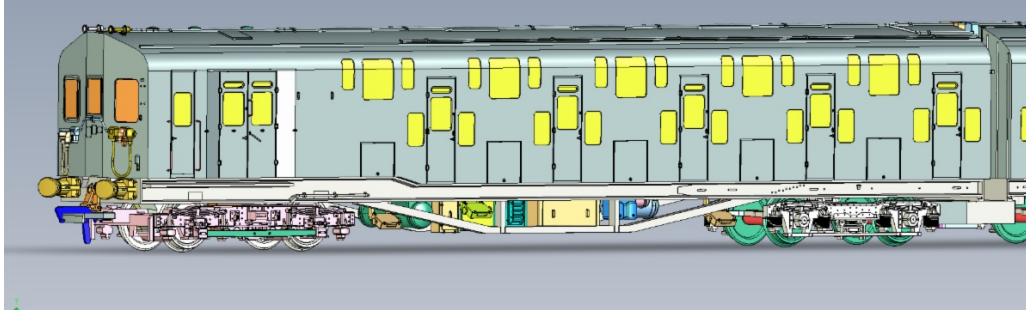

We are producing 4 colour liveries.  
Take a look today.

---

## **SR 4DD EMU**

Following our announcement last year of the Bulleid 4DD EMU, interest has been very strong. Tooling has begun and we should have samples in about 6 months. Therefore we have a 12 month instalment plan for ordering.

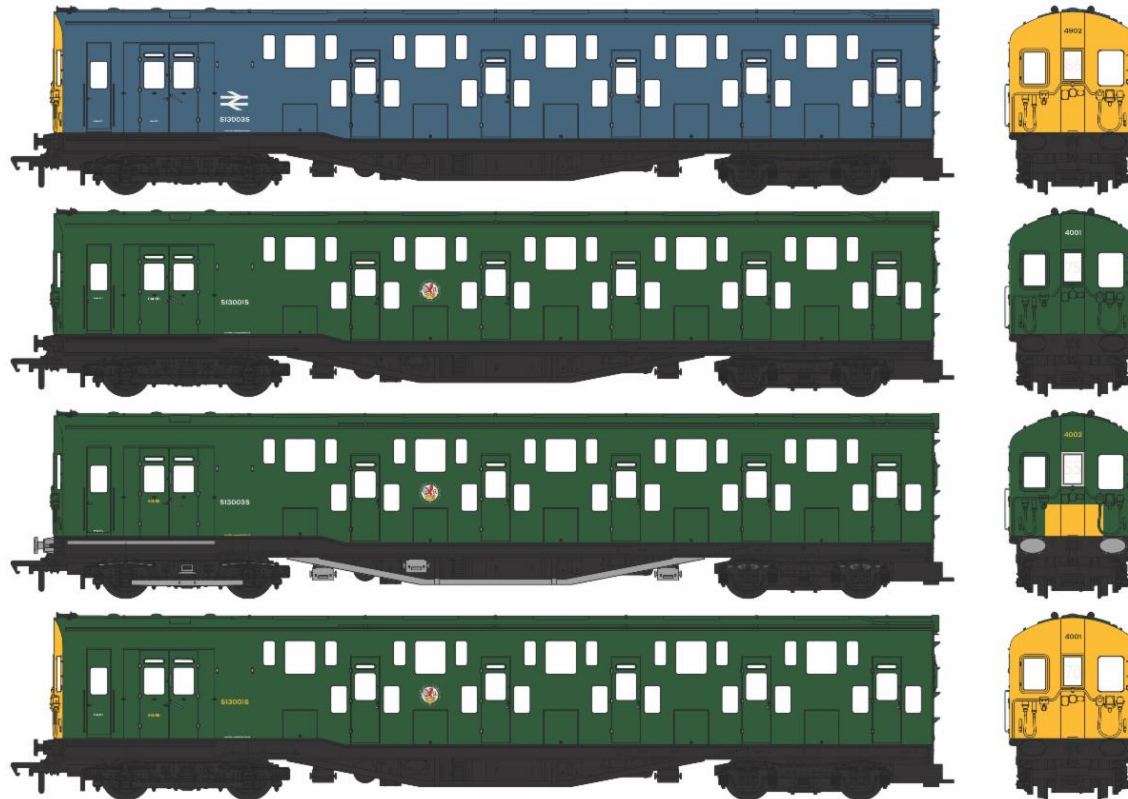

We hope to have the first samples to show off towards the end of the year, hopefully at Warley.

There are two examples still in existence that have valuable in the research in this project. The Bulleid 4DD Double Deck Group have been instrumental in getting this model to where we have it now. The CAD's are being made now.

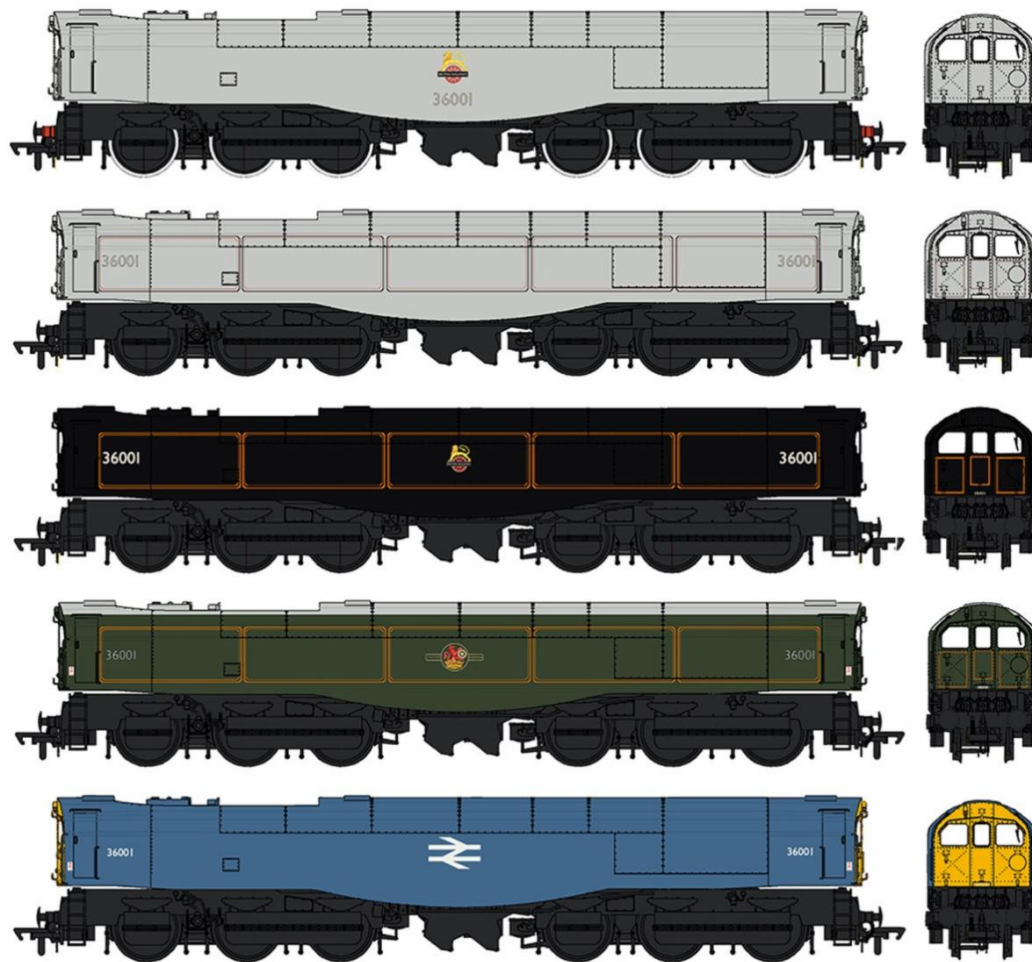

Prices will be £375 for DCC ready, £410 for DCC fitted and  
£475 for DCC sound

**The order Book is now open !!**

---

We are working on the decorated samples now, and we should have something to show you very soon. The estimated delivery date is around the end of the year, but this is NOT set in stone and subject to change.

---

**BR Palbrick B wagon.**

We are very pleased to announce that we are producing the BR Palbrick B wagon. In both complete and frame models. These are available to reserve now as we have the decorated samples. There is a few minor errors that need fixing before we go into full production. Delivery is expected in the summer 2022. This is subject to change.

The prices are 3 wagons for £60.00 plus shipping.

Order NOW to avoid disappointment.
