

The Shay is seliing **FAST !!!**

Greetings!

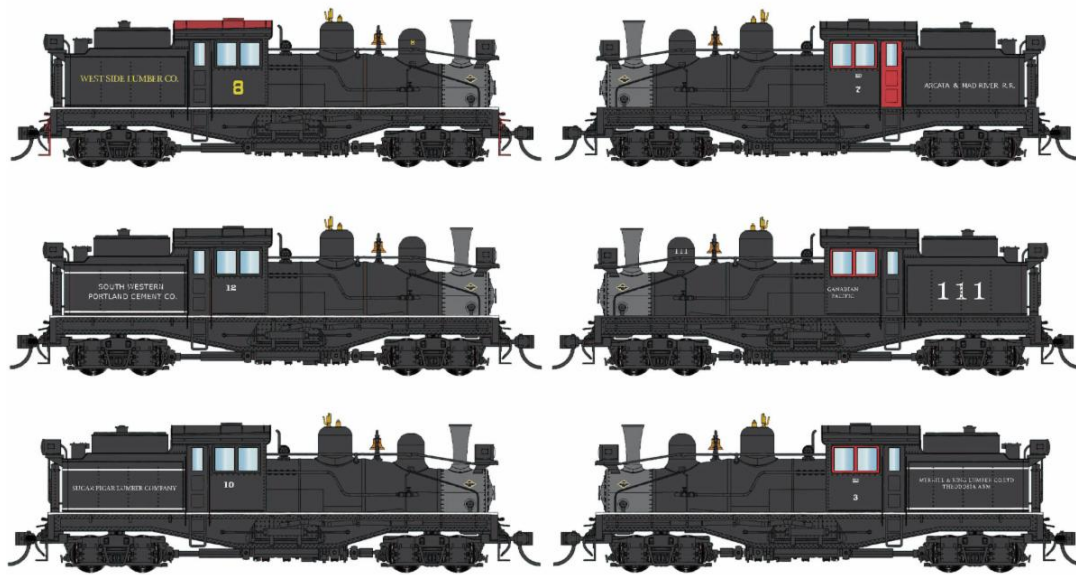

You are receiving this email because you signed up for information regarding the The Shay steam loco.

KR Models would like to express their sincere gratitude for your interest in being a part of the Shay project.

We are now able to update you with the plan going forward. The order book is NOW OPEN. Demand will be strong for this model, and there is only a limited number being produced. We suggest that you reserve your order sooner rather than later.

We have received very high praise from both customers and the press with the Shay and that we are bringing out a high-quality model. We expect this model to sell out fast.

The CAD work is complete and we are into tooling. This will reduce the time it takes to produce the model.

Here we have the first EP sample for our two truck 50T Shay. As you can see all the detail is all there. The oil tank rear can be changed with a coal bunker. There will be two lights, directional front and back.

We also will fit speakers in EVERY model to save any issues if you choose to upgrade your model.

So that you can see just how good the drive train is we have made a short video of it running. Please click on the link below to see it in all its glory.

[The Shay running.](#)

There will be 3 versions available, DCC Ready \$299 USD, DCC Fitted \$339 USD, and DCC Sound \$449 USD. There will be two options available for payment. Pay all at once, or spread the cost over our payment plan. If you choose the payment plan, we will ask for a \$50.00 deposit to secure your model. Then the balance will be taken over 6 months.

For those of you who are not familiar with our payment plan system. You pay a small deposit to reserve your model, then split

the balance over 4 easy interest-free payments every 2 months as the project proceeds. It makes buying models far more manageable.

Delivery is expected around Q3 2022

but this is a rough estimate and subject to change.
